# Prerequisites, Restrictions, Cautions

## Prerequisites

- Create subaccounts in your global account using SAP Business Technology Platform.
- Once a subaccount is created, you must create an org in order to use it.
- Configure a trusted service provider or client.
- See [SAP Help Portal](#) for full configuration requirements.

## Restrictions

- BTP hosting is available in Europe or all European hosted Ariba customers and US for all remaining customers.
- Augmented reality models must be available via a URL with no login requirements such as a publicly available URL
- SAP Ariba Shopping is available on iOS 14.0 and above.
- SAP Ariba Shopping is available on Android 8.0 and above.

# Feature details

- Casual users get a user friendly, focused and personalized experience to purchase catalog subscription items.
- Administrators can successfully guide users to preferred products via catalog kits.

# Feature details

- Users get advanced search functionality including text, visual, and voice search.
- Casual users can preview products in augmented reality.
- Casual users get insights into sustainability measures and can factor these into their purchasing decisions.

# Feature details

- SAP Ariba Shopping is available for both iOS and Android (see android user experience below).

# Thank you.
