Why Ariba?

Benefits for Corteva and Suppliers

- **One Procure-to-Pay Platform** to easily collaborate and transact with suppliers
- **One Source of Truth** to standardize the data and processes
- **Time Reduction** in end-to-end collaboration and transaction with suppliers

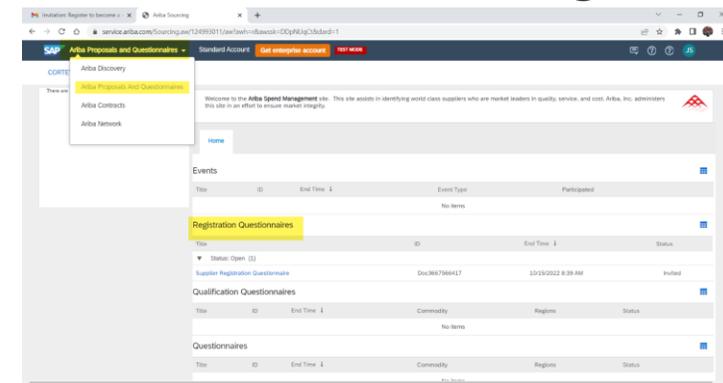

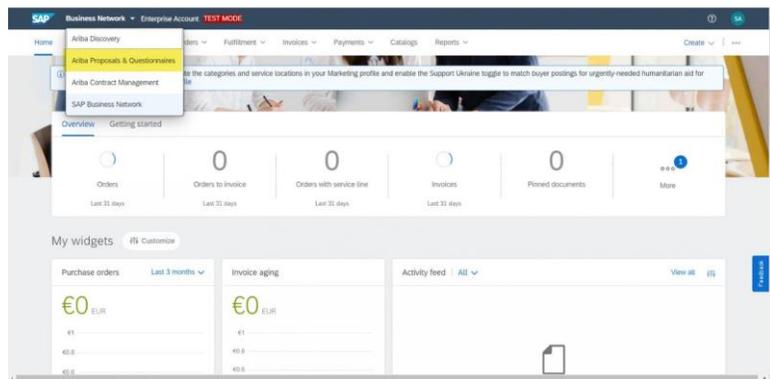

Corteva's Ariba Journey

In October 2022, Corteva launched a series of new Ariba tools as part of the Future ERP "Go Live" for the Crop Protection business platform in EMEA.

Ariba Supplier Management takes Corteva's Ariba initiative beyond just "transacting" on the SAP Business Network*:

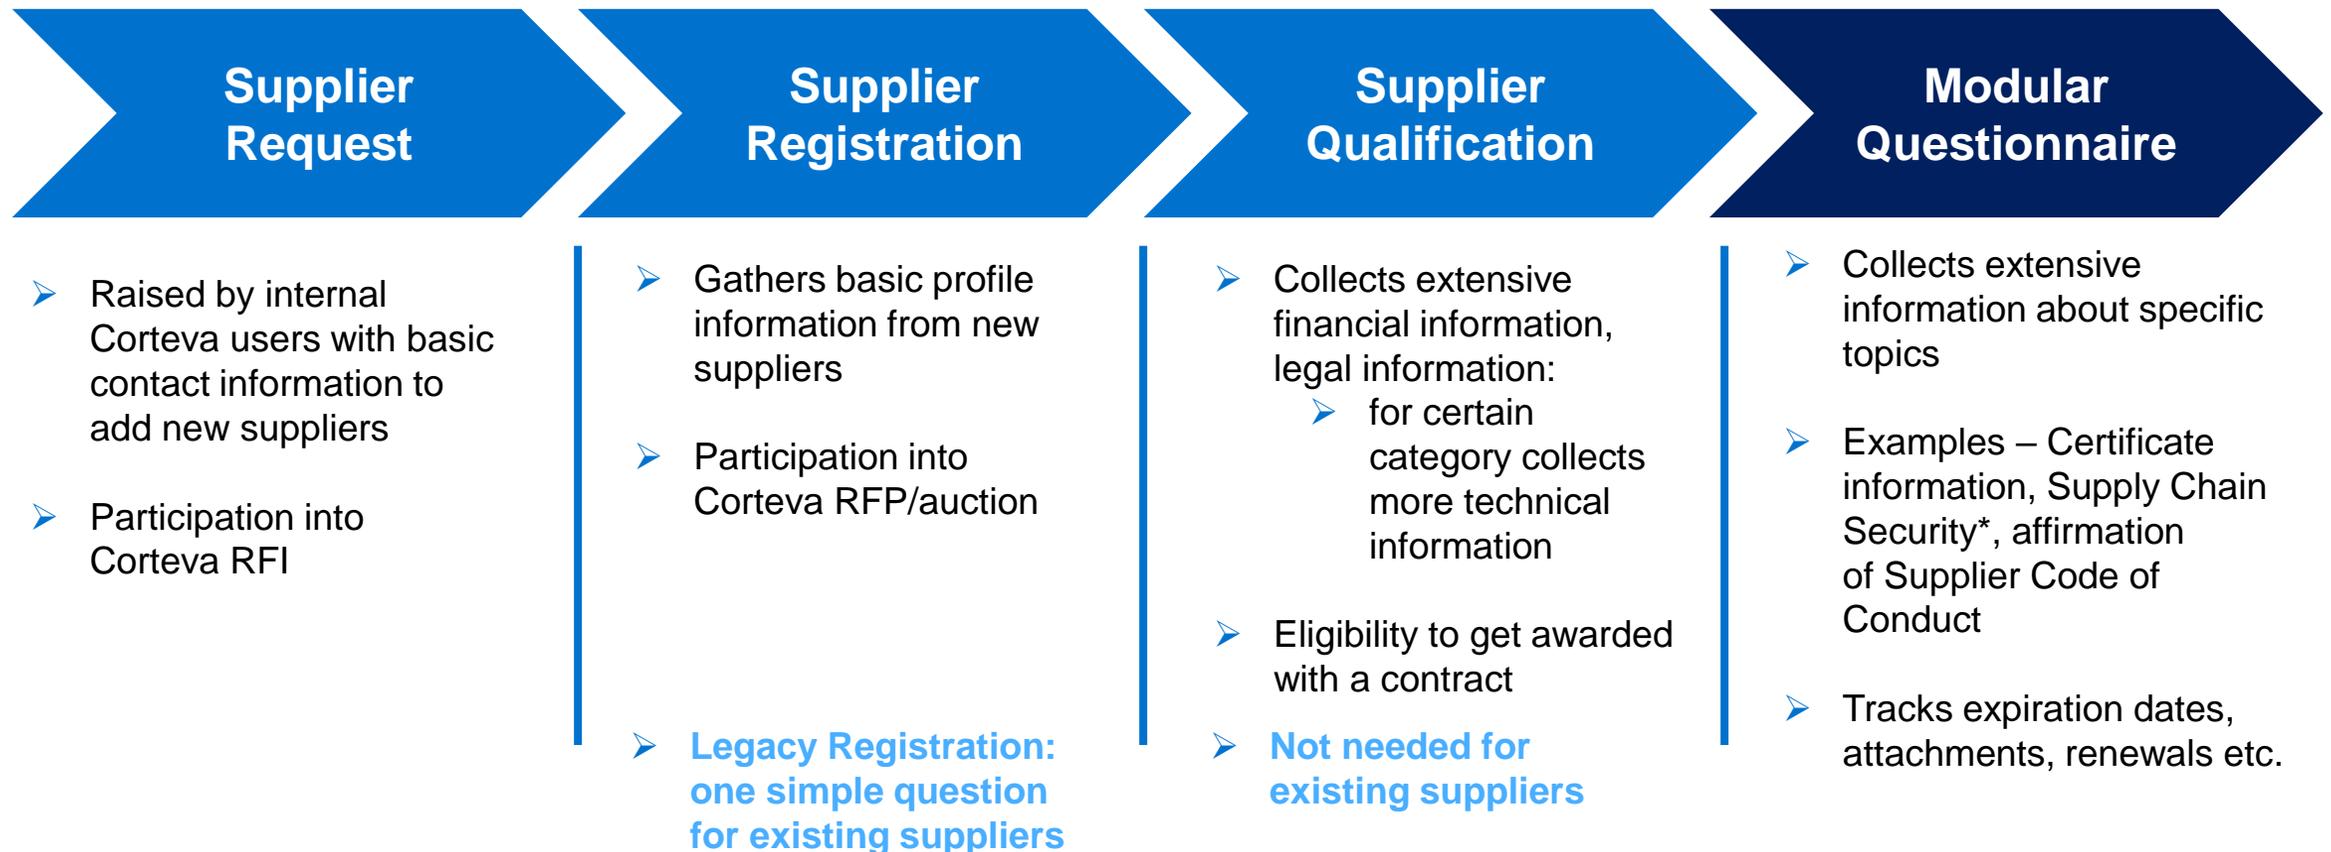

The **SAP Business Network** allows suppliers to **transact** with Corteva after we migrate to Future ERP.

Ariba Proposals and Questionnaires is additional to doing transactions on the AN: it creates a **relationship** between Corteva and the supplier and allows for **easier engagement and information sharing**.

Overview of Ariba Supplier Management (Ariba SLP)

Ariba SLP provides comprehensive tools to manage suppliers better. It helps reduce onboarding and qualification cycle time.
