

Ariba Network CIF Catalog Guide

Aurobay

Agenda

- What is a CIF Catalog?
- CIF Catalog Enablement
- Publishing a Catalog on Ariba Network
- Updating CIF Catalog

What is CIF Catalog?

SAP Ariba 

What is CIF Catalog?

- A static catalog (CIF) is a text file stored on Ariba Network that describes the products and services your organization offers and the prices you charge. AUROBAY's users access your catalog through SAP Ariba Procurement to purchase your products and services offerings.
- It allows:
 - Rapid Deployment
 - Great Compliance Control
 - Low Setup Cost and Complexity
- AUROBAY's users will be able to:
 - See;
 - Compare;
 - Buy;
 - ...your items from SAP Ariba Procurement.

User Interface (customer users) – Items View

- Search for Items or browse through the different Categories
- Returned search results
- Single item view

CIF Catalog Enablement

SAP Ariba 

CIF Catalog Enablement

AUROBAY's Prerequisites to Start:

- Catalog Requirements Completed
- Catalog Approvers Identified
- Commodity Codes & UoM Loaded
- Supplier Master Data Enriched (Supplier ANID Added)
- Escalation Path Defined
- Catalog Content Clarified with Supplier

Supplier's Prerequisites to Start:

- Catalog Content Clarified with AUROBAY
- Ariba Network Trading Relationship Established
- Ariba Network Test Account Created

Buyer Testing might be extended up to 8 weeks if transaction integration is requested by the Supplier

Publishing a Catalog on Ariba Network

SAP Ariba 

Ariba Network Access, Catalog Publication

1 Access your Ariba Network Account

Go to: <http://supplier.ariba.com>

Enter your **Username & Password** and click **Log In** to access your Production account.

- Your catalog on Ariba Network must first be created in your **TEST** account.
- You will load your catalog on your production account only after publication and validation of the catalog in your **TEST** account.

2 Click on the **Catalogs** tab on your Home Dashboard

3 Click on the **Create Standard** button

Catalog Publication

4 Enter the **Catalog Name** which has been communicated to you.

This needs to match AUROBAY's naming convention provided in the introductory email from SAP Ariba

5 Click **Next**

6 Select **Private**

7 Select AUROBAY in your customers' list.

8 Click **Next**

3 Content

UPLOAD YOUR CATALOG FILE

Choose File No file chosen

! After you click Validate and Publish, do not use your Web browser until your catalog is finished uploading. Large catalogs can take several minutes to upload.

Validate and Publish

Note: Ariba Network supports an Excel file (zipped or unzipped format) up to 1 MB. If your file is bigger, you must convert it into a .cif file (see next slides).

Converting the Excel File into .csv file

If your file exceeds 1 MB, you must convert it into .cif format to be able to upload your CIF Catalog on your account.

- First, convert the Excel file into .csv format : Open your template, select Save As option. On the pop up window click on **Tools** and select **Web Options**. In the Web Options window, click on the **Encoding** tab and select **Unicode (UTF-8)**. Save the file as **CSV file** then click OK.
- Save the template.

Convert your .csv file into .cif file

- Once your template is a CSV file, open it with Notepad and delete all the commas and quotation marks from the header, before and after DATA/END OF DATA lines and quotation marks in the FIELDNAMES line but **do not modify data lines**, save it once it is done.
- Then rename the file with the extension **.cif** (instead of .csv): Ex. Template cif deck.cif

Important: you need to ensure that the fields are separated by commas (,) and not by semi-colons (;)

Catalog Publication

- After the entire catalog has been uploaded:
 - Ariba Network begins the catalog validation
 - It can take several minutes to validate large catalogs
 - Ariba Network stores new catalogs in a queue and validates them one by one
- You can upload other catalogs while Ariba Network is validating.

- Once you have completed uploading your catalog(s):
 - DO NOT** log out
 - Click the “**Refresh**” button on the catalog dashboard to update your catalog status.

Catalog Validation - Status

- After Ariba Network completes the upload, if there are no network validation errors, the catalog status is changed to **Published** and a network-generated email is sent to AUROBAY.
- As AUROBAY is using AutoSubscriptionSync, the catalog is pulled into the SAP Ariba Procurement to begin the AUROBAY-specific validations and the status will change to **Pending Buyer Validation**.

File Name	Type	Size	Visibility	Created By	Date Created	Status
Basic CIF Sample - EN - SANDBOX INVP20.cif	CIF	8 KB	Private		29 Apr 2021	Published

File Name	Type	Size	Visibility	Created By	Date Created	Status
Basic CIF Sample - EN - SANDBOX INVP20.cif	CIF	8 KB	Private		29 Apr 2021	Pending Buyer Validation

Catalog Validation/Errors

Errors can occur when:

- Validating against the high-level Ariba Network rules.

Catalog Name ↑	Version	File Name	Type	Size	Visibility	Created By	Date Created	Status
CUSTOMER_SUPPLIER_FR_CIF	1	Basic CIF Sample - EN - SANDBOX INVP20 - with errors.cif	CIF3.0	8 KB	Private		29 Apr 2021	10 Errors Found by Ariba Network

- Validating against the **buyer**-specific validation rules.

Catalog Name ↑	Version	File Name	Type	Size	Visibility	Created By	Date Created	Status
CUSTOMER_SUPPLIER_FR_CIF	1	Basic CIF Sample - EN - SANDBOX INVP20 - with errors.cif	CIF3.0	8 KB	Private		29 Apr 2021	2 Validation Errors Found by Customer

Note: Even if a catalog passes the high-level Ariba Network validation rules, you could still receive a notification within 24 hours informing you the catalog has failed the buyer-specific catalog validation rules.

How to Correct Errors Found by Ariba Network

- Click on the red **Error** message

Catalog Name ↑	Version	File Name	Type	Size	Visibility	Created By	Date Created	Status
CUSTOMER_SUPPLIER_FR_CIF	1	Basic CIF Sample - EN - SANDBOX INVP20 - with errors.cif	CIF3.0	8 KB	Private		29 Apr 2021	10 Errors Found by Ariba Network

← Click here

- One is sent directly to the “**Errors**” tab where one can review the error details

Updating CIF Catalog

SAP Ariba 

Catalog Update – Step 1

When updating a catalog, it is not necessary to create a new standard. It is important to maintain the same catalog subscription name.

1 Select your catalog

2 Click **View/Edit**

3 Click **Content**

4 Click **Download Catalog File**

A screenshot of a catalog list table. The table has columns: Customer Name, Catalog Name ↑, Version, File Name, Type, Size, Visibility, Created By, and Date Created. A row is highlighted with a blue selection circle, and a yellow box highlights the 'View/Edit' button below it. Other buttons like 'Test', 'Delete', 'Create Standard', 'Create Punchout Only', and 'Refresh' are also visible.

Customer Name	Catalog Name ↑	Version	File Name	Type	Size	Visibility	Created By	Date Created
GSO Combo Sandbox - P20 / InvPro - TEST	CUSTOMER_SUPPLIER_GB_CIF	1	Basic CIF Sample - EN - SANDBOX INVP20.cif	CIF	8 KB	Private		29 Apr 2021

A screenshot of the 'Edit a Catalog' page. The page has a sidebar with 'Details', 'Content', and 'Subscriptions' tabs. The 'Content' tab is selected and highlighted with a yellow box. The main area shows a 'Content Items' table with columns: Item No., Supplier ID, Supplier Part ID, Manufacturer Part ID, and Item Desc. At the top right, there are buttons for 'Previous', 'Create New Version', 'Upload Catalog File', and 'Download Catalog File'. The 'Download Catalog File' button is highlighted with a yellow box.

View and edit the contents of a catalog. Add or remove items from a catalog. To replace the existing catalog file, click Up

Item No.	Supplier ID	Supplier Part ID	Manufacturer Part ID	Item Desc
				The new SuperBoo Laptop PC combines

Catalog Update – Step 2

1 Click **Download as CIF**, for ease of editing, you can convert the file to Excel and download it. Each button will change from grey to black as you follow the process.

2 Click **Convert to Excel** and wait for the next button to highlight

3 Click **Refresh Status** and wait for the next button to highlight

4 Click **Download as Excel** and save the file to your computer

5 Click **Exit**

Catalog Update – Step 3

Open the downloaded file in Excel and enable editing and make necessary changes.

View and edit the contents of a catalog. Add or remove items from a catalog. To replace the existing catalog file, click Up

Content Items

Item No.	Supplier ID	Supplier Part ID	Manufacturer Part ID	Item Desc
				The new SuperBook Laptop PC combines

Catalog Update – Step 5

1 Click **Choose File** and browse to the catalog file on your computer.

2 Click **Validate and Publish**

The screenshot shows the 'Edit a Catalog' interface. On the left, there is a navigation menu with three tabs: '1 Details', '2 Content', and '3 Subscriptions'. The 'Content' tab is selected and highlighted with a yellow box, and a yellow '1' is placed to its right. The main area of the interface is titled 'Edit a Catalog' and contains the following elements:

- A text instruction: 'Choose the catalog file for upload. Catalog files must be CIF, cXML, or Excel files (.cif, .xml, .xls or .zip).To
- A section titled 'UPLOAD YOUR CATALOG FILE' containing a file upload area with a 'Choose File' button and the text 'No file chosen'. The 'Choose File' button is highlighted with a yellow box, and a yellow '2' is placed above it.
- A yellow warning banner with an exclamation mark icon and the text: '! After you click Validate and Publish, do not use your Web browser until your catalog is finished uploadi
- A blue button labeled 'Validate and Publish'.
- A footer text: 'Manage content for your catalogs. Download and edit these catalog files.'

Catalog Update – Latest Version Only

- The latest version is the only one available for modifications.
- To access previous versions, you must delete the more recent versions first.
- When a catalog has several versions, you can delete all of them by clicking: Delete > All versions or only delete the latest version by selecting the catalog and clicking Delete > Latest Version Only

The screenshot shows the SAP Ariba Network interface. At the top, there's a navigation bar with 'SAP Ariba Network', 'Enterprise Account', and 'TEST MODE'. Below that, a breadcrumb trail includes 'Home', 'Workbench', 'Orders', 'Fulfillment', 'Invoices', 'Payments', 'Catalogs', and 'Reports'. The main heading is 'Catalogs'. A descriptive text says: 'Manage catalogs for your customers using the catalog dashboard. Catalog files must be CIF, cXML, or Excel files (.cif, .xml, .xls or .zip). Some customer...'. Below this is a table with columns: Customer Name, Catalog Name ↑, Version, File Name, Type, Size, Visibility, and Created. There are two rows for 'GSO Sandbox - P20 - TEST' with 'CUSTOMER_SUPPLIER_FR_CIF' as the catalog name. The first row is version 2, and the second is version 1. A blue circle highlights the selection icon for the version 2 row, with a '1' next to it. Below the table, there are buttons for 'View/Edit', 'Test', 'Delete', 'Create Standard', 'Create Punchout Only', and 'Refresh'. The 'Delete' dropdown menu is open, showing 'Latest Version Only' (highlighted with a yellow box and a '2') and 'All Versions'.

Customer Name	Catalog Name ↑	Version	File Name	Type	Size	Visibility	Created
GSO Sandbox - P20 - TEST	CUSTOMER_SUPPLIER_FR_CIF	2	Basic CIF Sample - EN - SANDBOX INVP20.cif	CIF3.0	8 KB	Private
