SAP Business Network for Supply Chain High-level Architecture

10

SAP Business Network for Supply Chain Full System integration

Supplier adoption/Enablement is a pre-condition of supplier Integration

An Integrated supplier has still access to the portal and can work manually in SAP Business Network if needed

> 3 to 6 months project: not only technical but also a business project (alignment are required on process, MD, ...)

No extra cost foreseen, but the integration team needs to be mobilized on supplier side too

The HTTPS documentation that can be shared on demand (prerequisite regarding the connection and expected Tasks/Activities)
