

# Enhancements to Relationship Management User Interface (NP-45779)

Target GA: May, 2024

## Feature Overview

# Introducing: Enhancements to Relationship Management User Interface (NP-45779)

## Feature Description

This feature introduces the new user interface to manage relationships on SAP Business Network.

## Key Benefits

Customer relationships application for Suppliers is enhanced with visually appealing user interface. The improved aesthetics will make using the application more visually pleasing and an engaging experience for our customers.

Audience:

Buyers & Suppliers

Enablement Model:

Automatically On

Applicable Solutions:

SAP Business Network

# Prerequisites, Restrictions, Cautions

## Prerequisites

- None

## Restrictions

- The new relationship management pages both buyers and suppliers do not have all the functionalities of the previous SAP Business Network interface. To use all the functionalities, users must navigate to the previous interface by clicking on **Advanced View**.

## Cautions

- None

# User Story

## Buyer side

- As a buyer company admin I need to be able to manage relationships on simple and nice UI on the SAP Business Network so that the proper suppliers with the proper relationship type are maintained making sure the proper collaboration flows are enabled between my company and other companies.

## Supplier side

- As a supplier company admin I need be able to have an overview using a simple and modern UI, about the list of my buyers and to be able accept and reject relationships on the SAP Business Network from new buyers so that I can do transactions with them.

# Feature Details – Buyer’s Current Relationships

## Functionalities available

- List of your Suppliers
- Filtering / searching
- Navigation to supplier details
- Add collaboration
- Delete collaboration
- Enable / Disable Supply Chain Collaboration
- Email notification about relationship changes
- Export capabilities
- Access to advanced view (old UI)

The screenshot displays the SAP Business Network interface for 'Current Relationships'. It features a navigation bar with options like 'Home', 'Supply Chain Monitor', 'Discovery', 'Workbench', 'Orders', 'Fulfillment', 'Invoices', 'Payments', 'Catalogs', 'Supplier Enablement', and 'Reports'. Below the navigation, there are search filters for 'Supply chain collaboration', 'Supplier', and 'ANID'. The main content is a table titled 'Supplier list' showing four rows of supplier data. Each row includes columns for Supplier, ANID, Account type, Supply chain collaboration, Country, Relationship type, and Action.

Supplier	ANID	Account type	Supply chain collaboration	Country	Relationship type	Action
supplier_gcpnman03060524071520	AN02003322729	Enterprise	No	United States	Fulfillment	...
supplier_gcpnman03060524033437	AN02003321798	Enterprise	Yes	United States	Fulfillment	...
supplier_gcpnman03060524071520	AN02003322729	Enterprise	No	United States	Logistics	...
supplier_gcpnman03060524071520	AN02003322729	Enterprise	No	United States	MaterialTraceability	...

## Restrictions on old UI:

- Delete collaboration is disabled
- Add collaboration is disabled
- Enable / Disable Supply Chain Collaboration disabled

# Feature Details – Supplier’s Customer Relationships

## Functionalities available

- List of your customers relationships
- Filtering / searching / grouping
- Automatically accept all relationship requests
- Accept / Reject relationship requests
- Mass actions (accept / reject)
- Export capabilities
- Email notification about relationship changes
