

SAP Ariba 

Ariba® Network Excel Catalog Guide

CONFIDENTIAL

THE BEST RUN 

Agenda

What is an Excel Catalog?

- Definition, what does it allow, what **Hitachi's** users will be able to do

Excel Catalog Enablement

- Hitachi's Prerequisites to Start vs Supplier's Prerequisites to Start

Publishing a Catalog on Ariba Network

- Ariba Network Access, Catalog Publication

Updating an Excel Catalog on Ariba Network

- Ariba Network Access, Catalog Publication

What is an **Excel** Catalog?

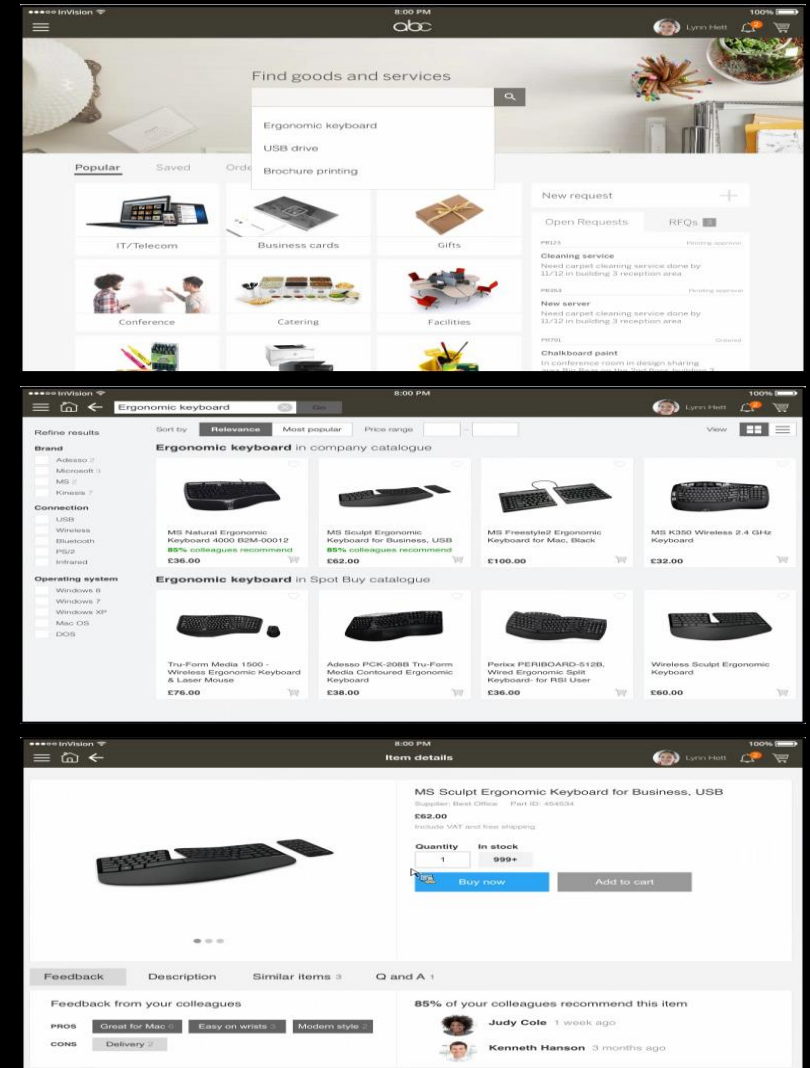

What is an Excel Catalog?

- A static catalog (Excel) is a text file stored on Ariba Network that describes the products and services your organization offers and the prices you charge. Your **Hitachi's** users access your catalog through SAP Ariba Procurement to purchase your products and services offerings.
- It allows:
 - Rapid Deployment
 - Great Compliance Control
 - Low Setup Cost and Complexity
- **Hitachi's** users will be able to:
 - See
 - Compare
 - Buy

User Interface (customer Users) – Items View

- Search for Items or browse through the different Categories
- Returned search results
- Single item view

Excel Catalog Template

Excel Catalog Template will be provided separately

	A	B	C	D	E	F	G	H	I	J	K

Excel Catalog Enablement

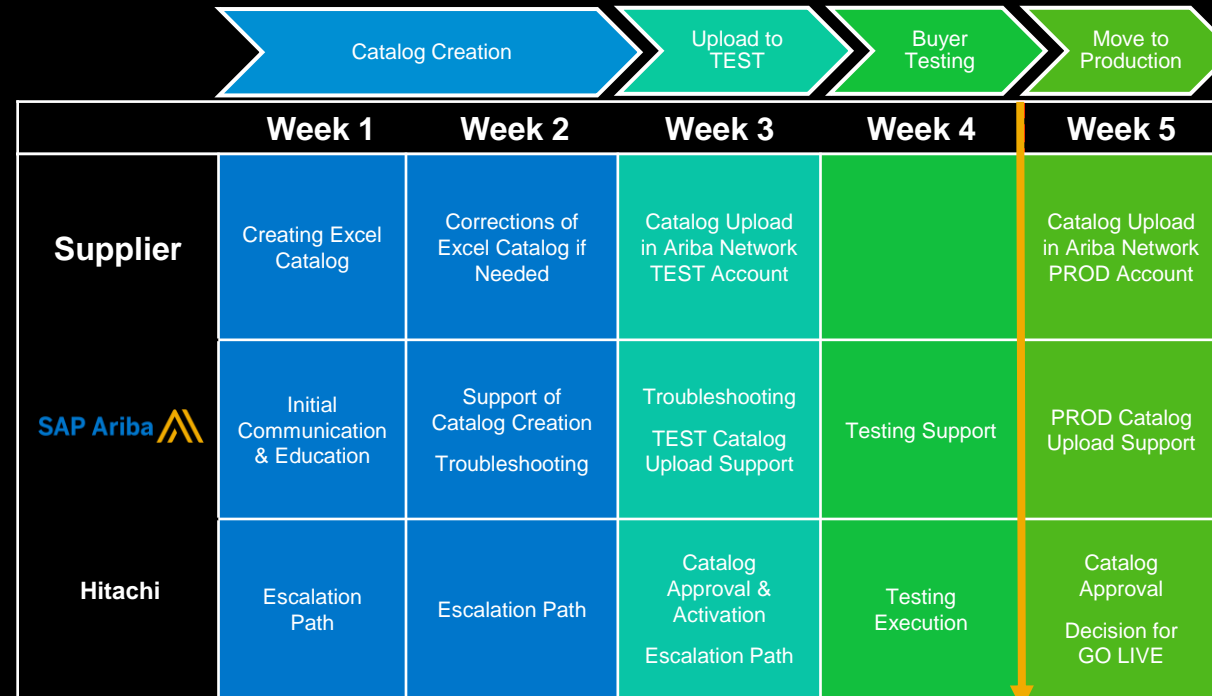

Excel Catalog Enablement

Buyer's Prerequisites to Start:

- Catalog Requirements Completed
- Catalog Approvers Identified
- Commodity Codes & UoM Loaded
- Supplier Master Data Enriched (Supplier ANID Added)
- Escalation Path Defined
- Catalog Content Clarified with Supplier

Supplier's Prerequisites to Start:

- Catalog Content Clarified with Buyer
- Ariba Network Trading Relationship Established
- Ariba Network Test Account Created

Buyer Testing might be extended up to 8 weeks if transaction integration is requested by the Supplier

Publishing a **Catalog** on Ariba Network

Ariba Network Access, Catalog Publication

1 Access your Ariba Network Account

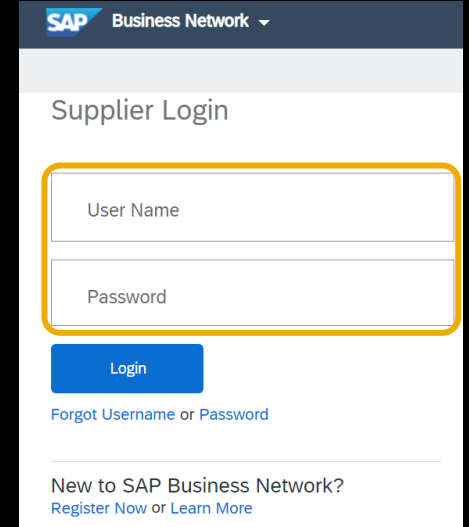

Go to: <http://supplier.ariba.com>

Enter your **Username & Password** and click **Log In** to access your Production account.

- Your catalog on Ariba Network must first be created in your **TEST** account.
- You will load your catalog on your production account only after publication and validation of the catalog in your **TEST** account.

2 Click on the **Catalogs** tab on your Home Dashboard

3 Click on the **Create Standard** button

Catalogs

Customer Name ↑	Catalog Name	Version	File Name	Type	Size	Visibility
-----------------	--------------	---------	-----------	------	------	------------

View/Edit Test Delete Create Standard Create Punchout Only Refresh

Catalog Publication

4 Enter the **Catalog Name** which has been communicated to you.

This should be based on the Hitachi naming convention

5 Click **Next**

6 Select **Private**

7 Select Hitachi in your customers' list.

8 Click **Next**

The image displays two screenshots of the 'Create a New Catalog' interface in SAP.

Top Screenshot (Step 1: Details):

- Page Header:** Create a New Catalog. Buttons: Next, Exit.
- Left Navigation:** 1 Details, 2 Subscriptions, 3 Content.
- Main Content:**
 - Enter a catalog name and descriptive text. Customers can search using this information. Add commodity codes to your catalog. * indicates required field.
 - Catalog Name:** TEST_OK_1 (highlighted with a red box).
 - Description:** (Empty text area, Characters left: 1000).
 - Commodities:** (Table with columns: Description, No items. Buttons: Delete, Add).
- Bottom Right:** Next (highlighted with a red box), Exit.

Bottom Screenshot (Step 2: Subscriptions):

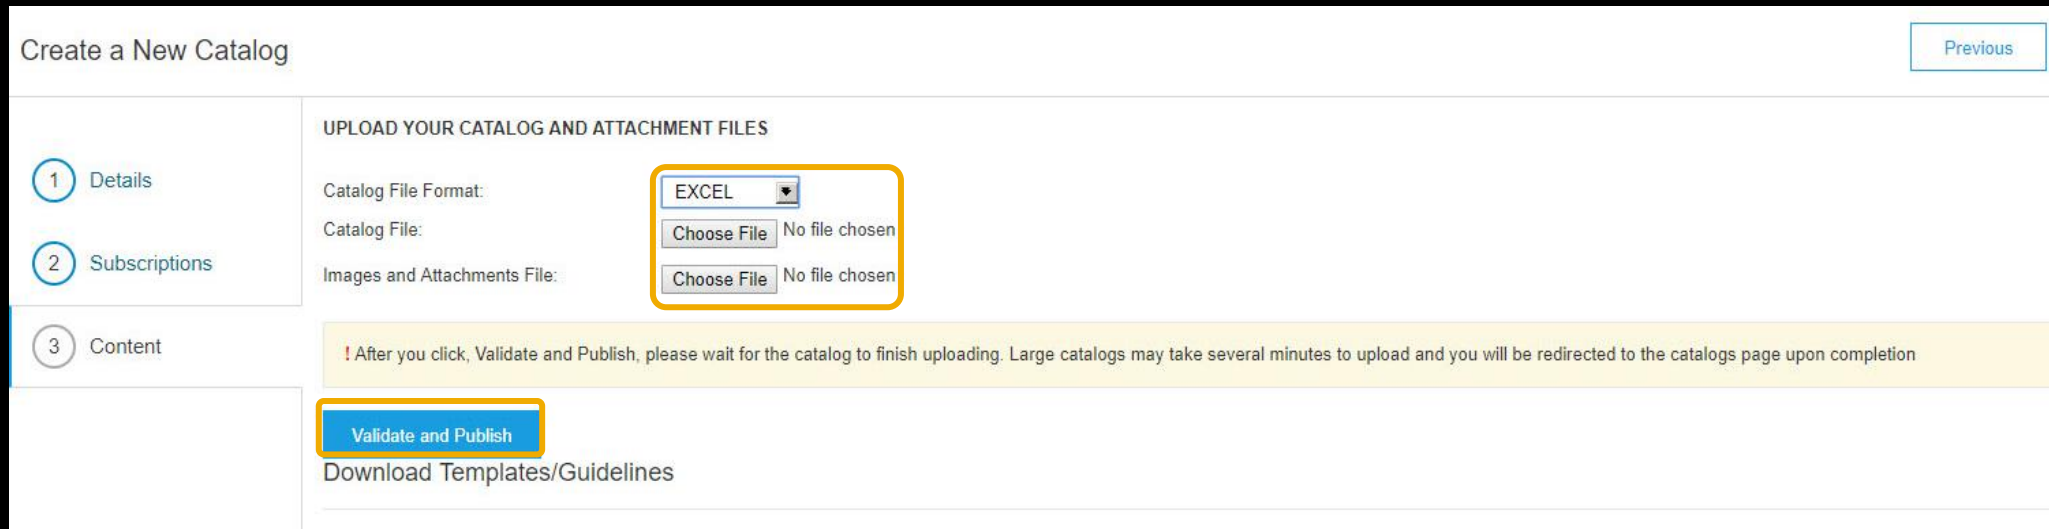

- Page Header:** Create a New Catalog. Buttons: Previous, Next, Exit.
- Left Navigation:** 1 Details, 2 Subscriptions, 3 Content.
- Main Content:**
 - Add customers and set the catalog visibility for customers. Click the customer's name to view validation rules on your customer's site.
 - You can receive status updates on catalogs, including catalog errors from your customer through email. To receive emails, click [Manage Profile](#) and enter the email address in the Email notification section.
 - Visibility:** Private - Only the selected customers that have a trading relationship with you can view and receive the catalog (highlighted with a red box).
 - Public:** All customers can view the catalog. Customers that have a trading relationship with you can also receive the published catalog.
 - Customers:** (Table with columns: Customers, Catalog Validation Rules, Validation Status for Version 1).
 - Customer List:**

Customers	Catalog Validation Rules	Validation Status for Version 1
GSO Sandbox - P20 (highlighted with a red box)	View	Pending Validation
- Bottom Right:** Previous, Next (highlighted with a red box), Exit.

Note: If Hitachi is not part of the customer list, it means that the Hitachi Trading relationship has not been accepted yet on Ariba Network. Please accept the relationship first.

Catalog Publication

9 Click **Choose File** and browse to the catalog file on your computer.

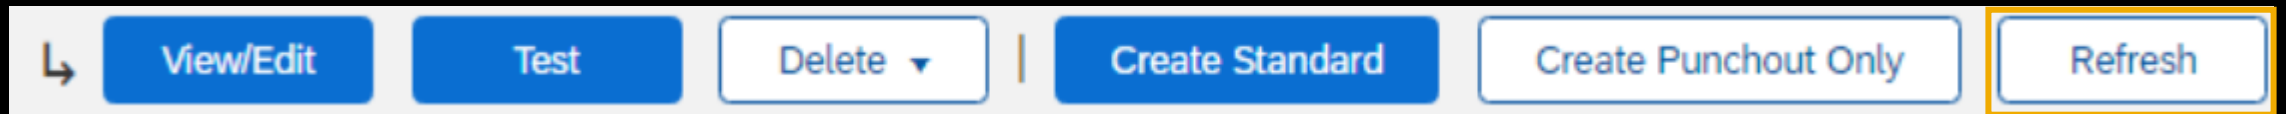

The screenshot shows the 'Create a New Catalog' interface. On the left, a sidebar contains three steps: '1 Details', '2 Subscriptions', and '3 Content'. The '3 Content' step is highlighted with a blue border. The main area is titled 'UPLOAD YOUR CATALOG AND ATTACHMENT FILES'. It contains two rows of upload fields. The first row is for the 'Catalog File Format', which has a dropdown menu set to 'EXCEL' and a 'Choose File' button. The second row is for the 'Catalog File', which has a 'Choose File' button and the text 'No file chosen'. Below these fields is a yellow warning banner that reads: '! After you click, Validate and Publish, please wait for the catalog to finish uploading. Large catalogs may take several minutes to upload and you will be redirected to the catalogs page upon completion'. At the bottom of the main area, there is a blue button labeled 'Validate and Publish' and a link labeled 'Download Templates/Guidelines'.

10 Click **Validate and Publish**

Note: Ariba Network supports an Excel file (zipped or unzipped format) up to 15 MB. If your file is bigger, you must upload it as Incremental under the same subscription name of the catalog.

Catalog Publication

- After the entire catalog has been uploaded:
 - Ariba Network begins the catalog validation
 - It can take several minutes to validate large catalogs
 - Ariba Network stores new catalogs in a queue and validates them one by one
- You can upload other catalogs while Ariba Network is validating.
- Once you have completed uploading your catalog(s):
 - DO NOT** log out
 - Click the “**Refresh**” button on the catalog dashboard to update your catalog status.

Catalog Validation - Status

- After Ariba Network completes the upload, if there are no network validation errors, the catalog status is changed to **Published** and a network-generated email is sent to the Hitachi
- As Hitachi is using AutoSubscriptionSync, the catalog is pulled into the SAP Ariba Procurement to begin the Hitachi-specific validations and the status will change to **Pending Buyer Validation**.

Excel	2 KB	Private	Estlega	11 Oct 2021	Published
-------	------	---------	---------	-------------	-----------

Excel	98 KB	Private	Estlega	11 Oct 2021	Pending Buyer Validation
-------	-------	---------	---------	-------------	--------------------------

Catalog Validation/Errors

Errors can occur when:

- Validating against the high-level Ariba Network rules.

Catalog Name		Version	File Name	Type	Size	Visibility	Created By	Date Created	Status
	DE_THF	1	Excel	Excel	21 MB			11 Oct 2021	 100 Errors Found by Ariba Network

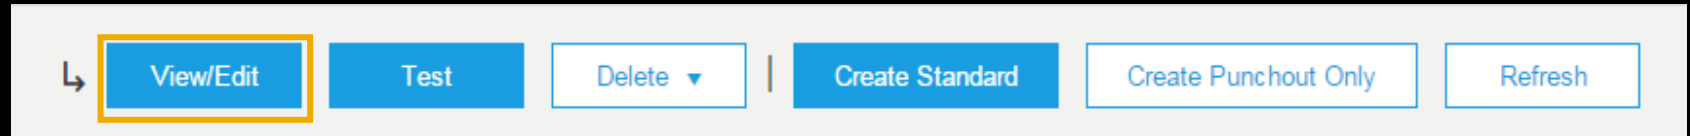

- Validating against **Hitachi**-specific validation rules.

	DK 9002831	1	DK 9002831	Excel	619 B			11 Oct 2021	 1 Validation Errors Found by Customer	18 Apr 2016
---	------------	---	------------	-------	-------	--	--	-------------	---	-------------

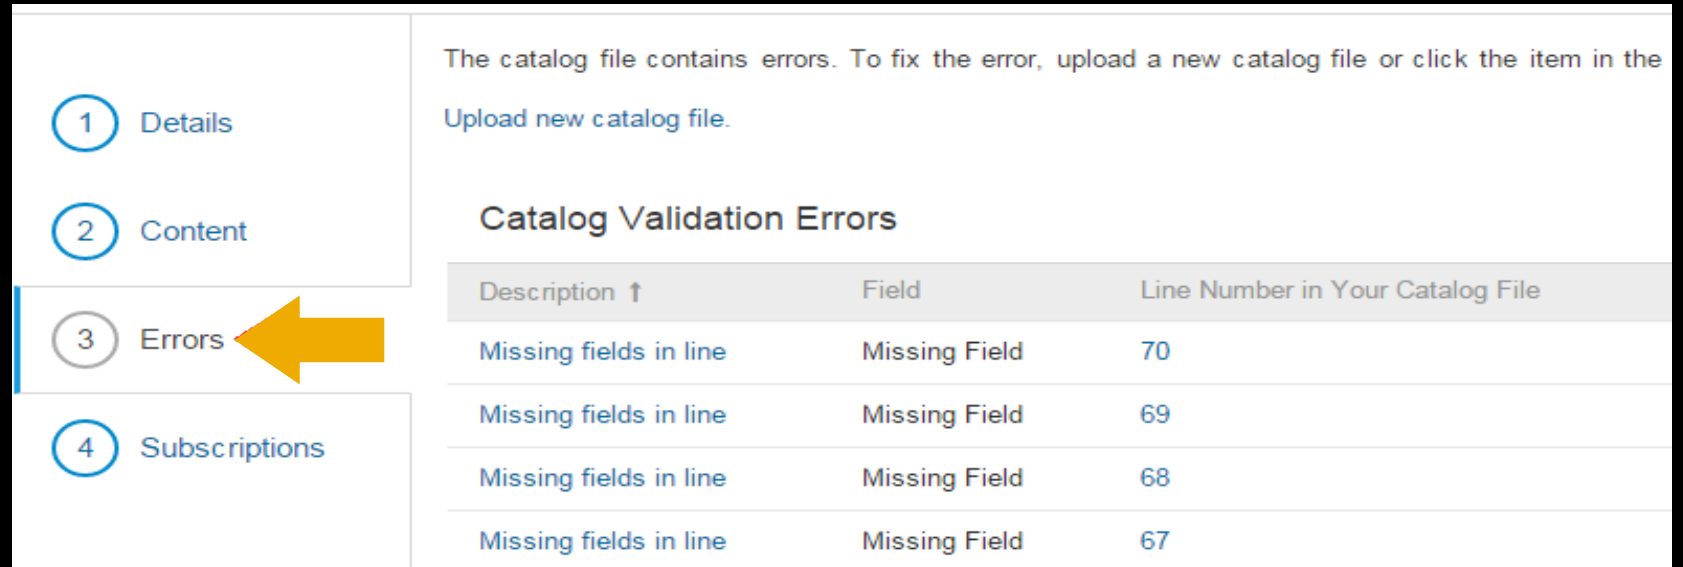

Note: Even if a catalog passes the high-level Ariba Network validation rules, you could still receive a notification within 24 hours informing you the catalog has failed the **Hitachi** -specific catalog validation rules.

How to Correct Errors Found by Ariba Network

- Click the “**View/Edit**” button on the dashboard

- On tab 3 “**Errors**” review the error details

A screenshot of the 'Errors' tab in the Ariba Network interface. On the left, a sidebar shows four tabs: 'Details', 'Content', 'Errors' (selected and highlighted with a blue bar and a yellow arrow), and 'Subscriptions'. The main area displays a message: 'The catalog file contains errors. To fix the error, upload a new catalog file or click the item in the Upload new catalog file.' Below this is a table titled 'Catalog Validation Errors'.

Description ↑	Field	Line Number in Your Catalog File
Missing fields in line	Missing Field	70
Missing fields in line	Missing Field	69
Missing fields in line	Missing Field	68
Missing fields in line	Missing Field	67

Updating an **Excel Catalog** on **Ariba Network**

Catalog Update – Step 1

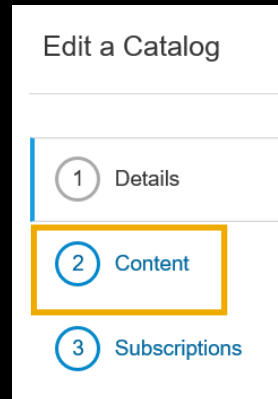

When updating a catalog, it is not necessary to create a new standard. It is important to maintain the same catalog subscription name.

1 Select your catalog

2 Click **View/Edit**

3 Click **Content**

4 Click **Download Catalog File**

Catalog Update – Step 3

Open the downloaded file in Excel and enable editing and make necessary changes.

Catalog Update – Latest Version Only

- The latest version is the only one available for modifications.
- To access previous versions, you must delete the more recent versions first.
- When a catalog has several versions, you can delete all of them by clicking:
Delete > All versions or only delete the latest version by selecting the catalog and clicking
Delete > Latest Version Only
