

Replacing Existing Catalogs - Validation

- When your Catalog passes the Network upload validation, the Network may show any of these statuses: **“Published”**, **“Validated by Customer”** or **“Pending Buyer Validation”** - *note that these are all valid statuses*. The upload is complete.

Customer Catalogs							Create	Create New Version	Modify Buyer Access
Catalog Name 	File Name	Version 	Visibility	Customer Type	Catalog Type	PunchOut	Created On	Customer	Customer BNOID
Customer: Example Customer - Test									
☐ SupplierABC_Static	product list.xlsx	1	Private	CMS	EXCEL		Jun 19, 2026, 1:08:20 PM	Example Customer - Test	BNO-000000000000007-T
Customer: Customer ABC									
☐ Sample Catalog	Sample CIF.cif	1	Private	Non-CMS	CIF3.0		Jun 4, 2026, 6:01:18 PM	Customer ABC	BNO-000000000000008-T
☐ SupplierABC_Static_EXT	Custome ABC product list.cif	3	Private	Non-CMS	CIF		Jun 22, 2026, 9:57:18 PM	Customer ABC	BNO-000000000000008-T
☐ SupplierABC_Static_EXT	Price list.cif	2	Private	Non-CMS	CIF3.0		Jun 19, 2026, 1:47:49 PM	Customer ABC	BNO-000000000000008-T
☐ SupplierABC_Static_EXT	Customer Product list.cif	1	Private	Non-CMS	CIF3.0		Jun 4, 2026, 6:07:03 PM	Customer ABC	BNO-000000000000008-T

- Notice that the Catalog Name stayed the same, but the new File Name loaded is reflected on the Network.
- The Network does Catalog version control for you. See that our replacement Catalog is now **Version 3**.
